

## EDUCATION

New Cairo Academy – Faculty of Computer Science

2021 – Present

## WORK EXPERIENCE AND ACTIVITIES

- **Graphic designer and technical instructor at Ensan Charity** **2021 – Present**
  - Designed visual content for print and digital media to support the charity's campaigns.
  - Delivered introductory programming sessions to volunteers, simplifying technical concepts for beginners.
- **Founder of El Manhag Team** **2023 – Present**
  - A student-led group creating educational videos, pre-exam revision sessions, and PDF summaries.
  - Coordinated the creation of study materials to support students during the semester and exam periods.

## TECHNICAL EXPERIENCE

- **Graphic designing**
  - Created posters, banners, and social media visuals for educational and nonprofit campaigns.
  - Experienced with tools like Adobe Photoshop and Illustrator to design clear and engaging graphics.
- **Content Creation & Video Editing**
  - Produced educational videos and revision sessions tailored for university students.
  - Edited videos using tools like Adobe Premiere Pro or Camtasia to ensure clarity and professionalism.
- **Technical Training & Instruction**
  - Delivered beginner-friendly programming sessions to students and volunteers.
  - Simplified complex topics to make them more accessible to non-technical audiences.
- **Educational Resource Development**
  - Designed structured PDF summaries and revision sheets to aid student learning.
  - Created visual and text-based resources to support various university subjects.
- **Team Leadership & Coordination**
  - Managed tasks and resource allocation to ensure the team met deadlines and maintained quality standards.
  - Organized and led brainstorming sessions to generate ideas, helping the team stay innovative and motivated.
- **Programming and OOP**
  - Familiar with object-oriented programming concepts such as classes, inheritance, and encapsulation.
  - Applied programming basics in training sessions and small projects to demonstrate real-world use.
- **Web Development**
  - Developed an interactive website for El Manhag Team, providing students with easy access to educational resources and study materials.
  - Developed simple websites using HTML, CSS, and JavaScript to practice front-end design.
  - Applied responsive design techniques to ensure content was accessible across devices.
- **UX/UI Design**
  - Designed user-friendly interfaces for web and mobile applications, focusing on usability and user experience.
  - Conducted user testing and incorporated feedback to improve design layouts.
- **Digital Marketing**
  - Developed content for online campaigns and social media platforms, boosting engagement with audiences.
  - Used analytics tools to measure the performance of visual content and optimize future posts.
